

Using Desmos[®]

[Desmos[®]](#) is a free online application that has many useful tools including a [graphing calculator](#) and a [scientific calculator](#).

These and other tools are available from the **Math Tools** drop-down menu.

The [Tutorial Page](#) provides information about how to get started and how to create specific graphs.

The following topics are helpful to understand when using the [Desmos[®] Graphing Calculator](#) for Algebra 1:

- [Graph Settings](#)
- [Points](#)
- [Tables](#)
- [Sliders](#)
- [Functions](#)
- [Regressions](#)

Each tutorial includes a guide, as well as an option for students to practice using *Graphing Challenges* links.
